

Welcome

You are invited to meet the corporate environment of our company

SAVANT PHARM

A company committed to the care of people's health through the development of pharmaceutical products developed with state-of-the-art technology.

Some history...

- 1993** The 21st of December of this year, in Arroyito, province of Córdoba, **Laboratorios Fabop** is founded with the main objective of **producing and commercializing specialized medicines**.
- 1997** The approval of **Nuevapina** marks the launching of our first **specialized medicine** and the beginning of **our national distribution**.
- 2002** The company moves to the city of El Tío, province of Córdoba, where our first **showcase plant starts to work producing solid and liquid medicines**; consequently, our productive capacity is risen 10 times.
- 2003** On the company's 10th birthday, the board decides to change its corporate image and the company evolves into **SAVANT PHARM**.

Where do we produce our medicines?

We have two showcase Plants equipped with **state-of-the-art technology**

Plant of **SOLID** and **LIQUID MEDICINES**

Plant of **ANTIBIOTICS**

What products do we develop?

We have three lines of products

The logo for OTC (Over-the-Counter) products, featuring the letters "OTC" in a blue, sans-serif font, with a blue swoosh underneath.The logo for FABOP (FABOP) products, featuring a blue hexagon with the letter "F" inside, positioned above the word "FABOP" in a blue, serif font.The logo for Vitarum products, featuring the word "Vitarum" in a blue, serif font, with a blue swoosh underneath.

OTC

This is our line of **over-the-counter medicines** which are exclusively commercialized in **FARMACIES**.

IBUXIM
ibuprofeno

Tostop
Bromhexina

ALMAXIMO
SILDENAFIL

Gripaben
paracetamol - pseudoefedrina - bromhexina

This line is commercialized in **FARMACIES**
and **directly in MEDICAL INSTITUTIONS.**

The medicines of this line have an **absolute therapeutic effectiveness**;
the same effectiveness achieved by the medicines produced by the **lab that**
discovered the original drugs.

Vitarum

This line offers people **proven therapeutic effectiveness**
at competitive prices.

These medicines are commercialized
in **FARMACIES** or **MEDICAL INSTITUTIONS.**

Which is our international goal?

Savant Pharm is establishing itself in international markets through the creation of long-term and strong relationships that allow for the development of sustainable export businesses.

Thanks.
